
REF: Polyester Sealing Machine

Monarch Economy Plus Polyester Sealing Machine

Make your own Melinex Envelopes & Encapsulation Units

The Monarch Economy Polyester Sealing Machine is a bead welding machine which is stronger than other types of seal. The machine edge seals polyester sheets in about 3-5 seconds.

The single action clap and alignment grid provides positive positioning and ease of operation.

The adjustable timer allows you to vary settings for different weights of polyester.

A built-in light sensor indicates complete weld.

An ideal machine for creating adhesive-free encapsulation units, folders and envelopes.

Welding capacity: 750mm continuous
